CONTENTS OF VOLUME 42

No. 1, SEPTEMBER 20, 1958

GUTTMAN, RITA, and ROSS, SAMUEL M. The effect of ions upon the response of smooth muscle to cooling 1

HOFFMAN, JOSEPH F. Physiological characteristics of human red blood cell ghosts 9

WILSON, VICTOR J. Action of meprobamate on spinal monosynaptic reflexes and on inhibitory pathways 29

SJODIN, R. A., and MULLINS, L. J. Oscillatory behavior of the squid axon membrane potential 39

CASTAÑEDA-AGULLÓ, M., and DEL CASTILLO, LUZ M. The action of alpha chymotrypsin upon mixtures of esters and proteins at enzyme-saturating concentrations 49

KRUEGER, ALBERT P., and SMITH, RICHARD F. The effects of air ions on the living mammalian trachea 69

CARLSEN, ELIZABETH, and COMROE, JULIUS H., JR. The rate of uptake of carbon monoxide and of nitric oxide by normal human erythrocytes and experimentally produced spherocytes 83

NORTHROP, JOHN H. Studies on the origin of bacterial viruses. I. The incidence of phage-producing cells in various *Bacillus megatherium* cultures. II. The effect of ultraviolet light on the incidence of phage-producing cells and of terramycin-resistant cells. III. The effect of hydrogen peroxide on the incidence of phage-producing cells and of terramycin-resistant cells. IV. Calculation of the incidence of phage-producing cells 109

MUELLER, PAUL. Prolonged action potentials from single nodes of Ranvier 137

MUELLER, PAUL. Effects of external currents on duration and amplitude of normal and prolonged action potentials from single nodes of Ranvier 163

MUELLER, PAUL. On the kinetics of potential, electromotance, and chemical change in the excitable system of nerve 193

No. 2, NOVEMBER 20, 1958

KIRSCHNER, LEONARD B. The cation content of phospholipides from swine erythrocytes 231

McLeod, G. C. Delayed light action spectra of several algae in visible and ultraviolet light 243

Loken, Merle K., Terrill, Kathleen D., Marvin, James F., and Mosser, Donn G. Comparative studies of three methods for measuring pepsin activity 251

Hubbard, Ruth. The thermal stability of rhodopsin and opsin 259

Eppley, Richard W. Potassium-dependent sodium extrusion by cells of *Porphyra perforata*, a red marine alga 281

Jensen, David. Some observations on cardiac automatism in certain animals 289

Klebanoff, S. J., Dziewiatkowski, D. D., and Okinaka, G. J. The effect of ascorbic acid oxidation on the incorporation of sulfate by slices of calf costal cartilage. Plates 1 and 2 303

Forster, Roy P., Berglund, Fredrik, and Rennick, Barbara R. Tubular secretion of creatine, trimethylamine oxide, and other organic bases by the aglomerular kidney of *Lophius americanus* 319

Northrop, John H. Studies on the origin of bacterial viruses. V. The effect of temperature on the terramycin-resistant and phage-producing cells of *Bacillus megatherium* cultures 329

MacRobbie, Enid A. C., and Dainty, J. Ion transport in *Nitellopsis obtusa* 335

Villegas, Raimundo, Barton, T. C., and Solomon, A. K. The entrance of water into beef and dog red cells 355

Radding, Charles M., and Wald, George. The action of enzymes on rhodopsin 371

Mauro, Alexander, and Finkelstein, Alan. Realistic model of a fixed-charge membrane according to the theory of Teorell, Meyer, and Sievers 385

Wolbarsht, M. L., and Dethier, V. G. Electrical activity in the chemoreceptors of the blowfly. I. Responses to chemical and mechanical stimulation 393

Wolbarsht, M. L. Electrical activity in the chemoreceptors of the blowfly. II. Responses to electrical stimulation 413

Meschia, Giacomo, and Setnikar, Ivo. Experimental study of osmosis through a collodion membrane 429

Munz, Frederick W. The photosensitive retinal pigments of fishes from relatively turbid coastal waters 445

No. 3, January 20, 1959

Cooperstein, I. L., and Hogben, C. Adrian M. Ionic transfer across the isolated frog large intestine 461

Lloyd, David P. C. Early and late post-tetanic potentiation, and post-tetanic block in a monosynaptic reflex pathway 475

BOREK, BLANCHE ANN, MILLER, LEO A., and BOVARNICK, MAX. An adenosinetriphosphate-activated hemolytic system. II. Utilization of adenosinetriphosphate in the reaction 489

THOMAS, CHARLES A., JR. The release and stability of the large subunit of DNA from T_2 and T_4 bacteriophage 503

HUF, ERNST G., and DOSS, NORMA S. Effect of temperature on electrolyte metabolism of isolated frog skin 525

ABBOTT, B. C., and MOMMAERTS, W. F. H. M. A study of inotropic mechanisms in the papillary muscle preparation 533

BLUMENFELD, OLGA O., and PERLMANN, GERTRUDE E. The amino acid composition of crystalline pepsin 553

BLUMENFELD, OLGA O., and PERLMANN, GERTRUDE E. Ultraviolet difference spectra of pepsin 563

PONDER, ERIC, and PONDER, RUTH V. Protein concentration in normal mouse lymphocytes, thymocytes, and mouse and human leucemic cells as measured by interference microscopy 571

EDMUNDS, ARTHUR B., JR. *In vitro* studies of P^{32} uptake in mouse liver mitochondria 597

SANDERS, RAYMOND T., and GIESE, ARTHUR C. The effect of ultraviolet light on the sodium and potassium composition of resting yeast cells 589

BRYANT, S. H. The function of the proximal synapses of the squid stellate ganglion 609

CASTAÑEDA-AGULLÓ, M., and DEL CASTILLO, LUZ M. The influence of the medium dielectric strength upon trypsin kinetics 617

KOBLICK, DANIEL C. An enzymatic ion exchange model for active sodium transport 635

GERSHFELD, NORMAN L., and SHANES, ABRAHAM M. The influence of high hydrostatic pressure on cocaine and veratrine action in a vertebrate nerve 647

ADELMAN, W. J., JR., and ADAMS, J. Effects of calcium lack on action potential of motor axons of the lobster limb 655

No. 4, MARCH 20, 1959

MILSTONE, J. H. Preparation of thrombokinase from bovine plasma 665

COHEN, R., and DELBRÜCK, M. Photoreactions in *Phycomyces*. Growth and tropic responses to the stimulation of narrow test areas 677

CASTLE, EDWARD S. Growth distribution in the light-growth response of *Phycomyces* 697

WILSON, VICTOR J. Recurrent facilitation of spinal reflexes 703

FUHRMAN, GERALDINE J., and FUHRMAN, FREDERICK A. Oxygen consumption of animals and tissues as a function of temperature 715

BACHOFER, C. S., and GAUTEREAUX, M. E. X-ray effects on single nerve fibers 723

FOX, MAURICE S. Phenotypic expression of a genetic property introduced by deoxyribonucleate 737

FREYGANG, W. H., JR., and FRANK, K. Extracellular potentials from single spinal motoneurons 749

BROOKS, V. B., and ENGER, P. S. Spread of directly evoked responses in the cat's cerebral cortex 761

BOWNESS, J. M., and WOLKEN, J. J. A light-sensitive yellow pigment from the house-fly 779

SHANES, ABRAHAM M., FREYGANG, W. H., JR., GRUNDFEST, HARRY, and AMATNIEK, E. Anesthetic and calcium action in the voltage-clamped squid giant axon 793

BIANCHI, C. PAUL, and SHANES, ABRAHAM M. Calcium influx in skeletal muscle at rest, during activity, and during potassium contracture 803

MULLINS, L. J. The penetration of some cations into muscle 817

TEORELL, TORSTEN. Electrokinetic membrane processes in relation to properties of excitable tissues. I. Experiments on oscillatory transport phenomena in artificial membranes 831

TEORELL, TORSTEN. Electrokinetic membrane processes in relation to properties of excitable tissues. II. Some theoretical considerations 847

No. 5, MAY 20, 1959

MAURIELLO, GEORGE E., and SANDOW, ALEXANDER. Active state of muscle in iodoacetate rigor 865

ELSBACH, PETER, and SCHWARTZ, IRVING L. Studies on the sodium and potassium transport in rabbit polymorphonuclear leucocytes 883

TASAKI, I., and BAK, A. F. Voltage clamp behavior of iron-nitric acid system as compared with that of nerve membrane 899

BAUGH, C. L., and CLARK, J. B. Photodynamic response in bacteria 917

JENERICK, HOWARD. The control of membrane ionic currents by the membrane potential of muscle 923

MCINTYRE, A. K., BRADLEY, K., and BROCK, L. G. Responses of motoneurons undergoing chromatolysis 931

KRUEGER, ALBERT P., and SMITH, RICHARD F. Parameters of gaseous ion effects on the mammalian trachea. A. Duration of effects. B. Minimal effective ion densities 959

DALTON, JOHN C. Effects of external ions on membrane potentials of a crayfish giant axon 971

SJODIN, RAYMOND A. Rubidium and cesium fluxes in muscle as related to the membrane potential 983

WYATT, G. R., and MEYER, W. L. The chemistry of insect hemolymph. III. Glycerol 1005

MULLINS, L. J. An analysis of conductance changes in squid axon 1013

PURPURA, D. P., GIRADO, M., and GRUNDFEST, HARRY. Synaptic components of cerebellar electrocortical activity evoked by various afferent pathways 1037

BENNETT, MICHAEL V. L., and GRUNDFEST, HARRY. Electrophysiology of electric organ in *Gymnotus carapo* 1067

DIAMOND, JARED M., and SOLOMON, A. K. Intracellular potassium compartments in *Nitella axillaris* 1105

SHANES, ABRAHAM M., and BIANCHI, C. PAUL. The distribution and kinetics of release of radiocalcium in tendon and skeletal muscle 1123

No. 6, JULY 20, 1959

WILLIAMS, G. R. A continuous flow method for the determination of glucose uptake by excised rat diaphragm 1139

HARDING, CLIFFORD V., and FELDHERR, CARL. Semipermeability of the nuclear membrane in the intact cell 1155

KISHIMOTO, UICHIRO, and AKABORI, HIROMICHI. Protoplasmic streaming of an internodal cell of *Nitella flexilis*. Its correlation with electric stimulus 1167

GHIRETTI, F., GHIRETTI-MAGALDI, ANNA, and TOSI, LUISA. Pathways of terminal respiration in marine invertebrates. II. The cytochrome system of *Aplysia* 1185

WEINBAUM, GEORGE, and MALLETTE, M. F. Enzyme biosynthesis in *Escherichia coli* 1207

LLOYD, DAVID P. C., and WILSON, VICTOR J. Functional organization in the terminal segments of the spinal cord with a consideration of central excitatory and inhibitory latencies in monosynaptic reflex systems 1219

COOPERSTEIN, I. L. The inhibitory effect of strophanthidin on secretion by the isolated gastric mucosa 1233

RATLIFF, FLOYD, and HARTLINE, H. K. The responses of *Limulus* optic nerve fibers to patterns of illumination on the receptor mosaic 1241

MAFFLY, ROY H., and LEAF, ALEXANDER. The potential of water in mammalian tissues 1257

NORMAN, DAVID, MENOZZI, PIERGIULIO, REID, DOREEN, LESTER, GABRIEL, and HECHTER, OSCAR. Action of insulin on sugar permeability in rat diaphragm muscle 1277

GRUNDFEST, HARRY, REUBEN, J. P., and RICKLES, W. H., JR. The electrophysiology and pharmacology of lobster neuromuscular synapses 1301

SANUI, HISASHI, and PACE, NELLO. Sodium and potassium binding by rat liver cell microsomes 1325

INDEX TO VOLUME 42 1347
